Dear _____ ,
I'm sharing with you a handcrafted virtual snowman

Greetings from _____ !

INSTRUCTIONS

1. Scan the QRCode inside the black border of the AR Marker
in the center of the greeting card with your smartphone camera
- or - look underneath the black border of the AR Marker for the URL
(https://qxr.li/...) that you can type directly into your phone browser
2. Allow camera access in your browser and focus the smartphone
camera on the AR Marker (make sure the entire black border is in
the field of view of the camera)
3. If you see a snowman appear on the greeting card, congrats
you are experiencing web-based augmented reality!

Please take a screenshot with your smartphone and share the
snowman image on social media with these tags:
